April 2022 updates to USD transfers on weekends

Historically for the past 15 years we have transferred USD on the weekends, as US banks don't operate on the weekend we have been doing this through our UK banks and using the mid market rate from google.

This has always cost us money, especially on sites that we offer the service for free on, for example:

Fancentro 0%, ModelCentro 0% and for sites we charge very little on:

IWantClips 1%, Skyprivate 1%, OnlyFans 1%, Stripchat 4%, Niteflirt 3.5%, Livejasmin 3%, IMLive 3%, Chaturbate 3%, CammodelDirectory 2%, Camcontacts 3%.

To continue to offer these sites we will have to only use US banks to send the USD (like we do on weekdays).

Services affected:

Payouts for USD sites (except for the below) on the weekends will now arrive on the Monday when US banks re-open.

Services un-affected:

Streamate will continue at this time to payout on the weekends. USD to other currencies are unchanged, eg Euro/CAD/USD and the rest. Zelle payouts and Paypal payouts won't change either and will continue to be sent on the weekends.

Overall this is a small change for most people but will greatly help the service continue to operate for many more years to come.
